

### III. Basque Country Wizard Cards Championship 2026

The Basque Association of Oware and Strategic Games organized the 3rd Basque Country Wizard Championship from August 1 to 4. Wizard is an engaging strategic card game in which players must make accurate predictions and play their cards skillfully to achieve them.

Twelve players participated in the competition, which was held over three days, with one match played each day. The Association's objective is to establish this as an annual in-person tournament.

In addition, several participants plan to begin competing online in order to take part in the World Ranking and represent the Basque Country internationally. We hope that this 12-player tournament will contribute to the Basque Country's inclusion in the global Wizard ranking and further promote its representation within the international Wizard community.
